BRADSTREET'S REPORT

Utah.

For the greater part of the day Steel common showed hesitation, but the price railled 1 per cent in the last half hour with only limited offerings at the close.

Much interest was felt in the crop reports, the traders confessing, however, that as a market factor the report had been discounted.

Corn condition was returned at 75.5 per cent against 86.9 per cent on July 1. Spring wheat, 74.1 a slight increase over July, with 78.5.

Corn condition was returned at 755 per cent against 850 per cent or splint to research the grown dult. A large boun market his grown dult. INTERSILING PEANUT MARKET.

INTERSI likely to prove a depressing factor. Bearishly disposed operators point to political complications in China as limiting the demand from the Far East, labor troubles in Spain, continued legislative uncertainties in this country. ceipts and predict that spinners will estimates the yield and production of buy sparingly until the stability of cach, as follows:
holders has been thoroughly tested.
These views, according to local bulls, may not take sufficiently into consideration reduced old crop supplies, peace in the Balkans, the comparatively lower the Balkans, the comparatively lower to the Balkans, the comparatively lower to the supplies of the suppli government reports so far issued and the increasing financial independence of the South as an aid to slow marketing, while toward the end of the week the continued dry, hot weather in Texas seemed to be attracting increased attention.

CROP REPORTS

Washington, August 8.—A loss of 200,000,000 bushels of corn, the nation's greatest farm crop, has resulted from the great damage wrought by drought and other conditions since July 1, was agricultural experts in their August crop report. A total production of 2,672,000,000 bushels of corn was predicted. This is 452,000,000 bushels loss than last year's crop.

The general condition of corn was placed at 75.8 per cent of a normal compared with 86.9 per cent on July 1. Kansas was hit hardest, the condition there having been reduced from \$1 per cent in July to 30 per cent on August 1. Oklahoma came next with a condition of 44, against 87 in July, and Nebraska reported 67, against 91 July 1. These three States have almost 19 per cent of the total area planted to corn this year.

A beight spot in the monthly grain July 1. These three States have almost 19 per cent of the total area planted to corn this year.

A bright spot in the monthly grain A bright spot in the monthly grain report, however, was the preliminary statistics showing a production of 511,000,000 bushels of winter wheat. This is the greatest harvest of wheat ever gathered in the United States, exceeding the record crop of 1902 by 19,000,000 bushels. To-day's figures exceeded by 28,000,000 bushels the estimate made by the department in July. Spring wheat, too, was given an in-A bright spot in the monthly grain report, however, was the preliminary statistics showing a production of 511,000,000 bushels of winter wheat. This is the greatest harvest of wheat ever gathered in the United States, exceeding the record crop of 1902 by 19,000,000 bushels. To-day's figures extended by 20,000,000 bushels.
